

## **National Guild of Hypnotists Professional Hypnotherapy\* Certification Course**

**Accent Evolution's** NGH Professional Hypnotherapy\* Certification Course program features small groups, lively and interactive learning, and extensive practice in a warm, success-oriented environment.

Both Beginner and Advanced levels of this certification program are given together so that you are fully able to practise hypnosis immediately upon graduation.

You will learn:

- o clinical applications for hypnosis
- o client assessment and pre-talk
- o direct and indirect trance techniques: inductions, 'tailored' and post-hypnotic suggestions, script-writing, etc.
- o self hypnosis techniques.

You will learn how to:

- o practise the classical approach to hypnosis
- o use hypnosis one-on-one for smoking cessation, weight control, stress management, self-esteem, pain management, fear elimination, goal-setting and other motivational requirements
- o run group hypnosis sessions for smoking cessation, weight control, stress management, self-esteem, goal-setting and other motivational requirements.

This 100-hour intensive course provides supporting materials for ongoing learning, reference and successful client work:

- o two Student Books totaling over 300 pages
- o induction, script and testing sheets
- o video and audio disks
- o Chevreuil's pendulum and other materials.

On graduation, you receive a diploma and are accredited by the National Guild of Hypnotists, the world's largest and most recognized professional hypnosis organization.

Graduates have an automatic one-year membership (\$125US value) in the Guild, which entitles you to:

- o Referrals through computer listings
- o Hypno-Gram quarterly newsletter
- o Journal of Hypnotism quarterly magazine
- o Video rental library for members
- o Online hypnosis discussion forums
- o Annual Conference
- o Book, tape, and video discounts
- o Hotel/motel and auto rental discounts in the U.S.
- o Your local Guild Chapter meetings, networking, referrals
- o Continuing education programs and credits (CEUs)

Our course is designed to deliver engaging experiential sessions that are crafted for evolutionary full-brain learning. It consists of lectures, demonstrations and hands-on practice in a supportive and interactive environment.

We are available seven days a week for follow-up questions or assistance for the duration of the course. Students may repeat the course, if they wish, at no additional cost.

Your professional trainers:

**Gisèle Leduc, CH, CI, MP.NLP**

**Gary Kellam, CH, CI**
